## The Digital Nameplate

### Your Advantages:

- Precise and efficient logistics processes for superior quality control.
- Easy access to all of your valve's information—all you need is a smart phone or tablet.
- Quick and clear identification of your valve, with extensive supporting documents and email support.

### The ARI-ID is an integral part of each ARI valve.

We are always working to provide superior products to you at maximum speeds. Having an ARI-ID to uniquely identify each ARI valve allows your valve to be monitored at each step of the journey with a secure check-in/check-out process. This reduces the risk of quality control issues during assembly and shipping, *and* it means your valve will travel through logistics with optimum efficiency!

### All you need to know at a glance.

The ARI-ID allows you effortless identification of your specific product, with links to corresponding data sheets, spare parts lists, operating instructions, and other manuals. The site also gives you the option to request assistance or spare parts directly by email.

### The ARI-ID is convenient and easy to use.

Service technicians and plant operators regularly need detailed valve information during installation and maintenance. For many people it requires significant effort to locate the specifications needed for valve support, service, or spare parts.

With ARI-ID, we have taken that inconvenience out of the process. All you need to do is scan an ARI-ID code with your smartphone camera. The displayed link will bring you to the website "ARI-ID – Product Information" where you will find extensive information about your specific valve.

### Secure Quality Control

Each valve is carefully monitored at every stage, and the ARI-ID allows for improved efficiency and quality control.

### Ultimate Convenience

All you need is a smart phone or tablet to immediately access a valve's complete product information.

### Everything in One Place

Find all of your product's information, including data sheets, spare parts lists, manuals, and customer service support!

### Test ARI-ID

Check out how it all works! This QR Code will take you to an example ARI-ID site, featuring our ZETRIX® Triple Offset Butterfly Valve.
